

# Exoplanet Life Form Data Activity

\* Required

Which planet were you assigned? \*

1 2 3 4 5 6

## How Big or Small?

10 meters \*

Height, vertical dimension, Y axis.

8 meters \*

Width, horizontal dimension, X axis.

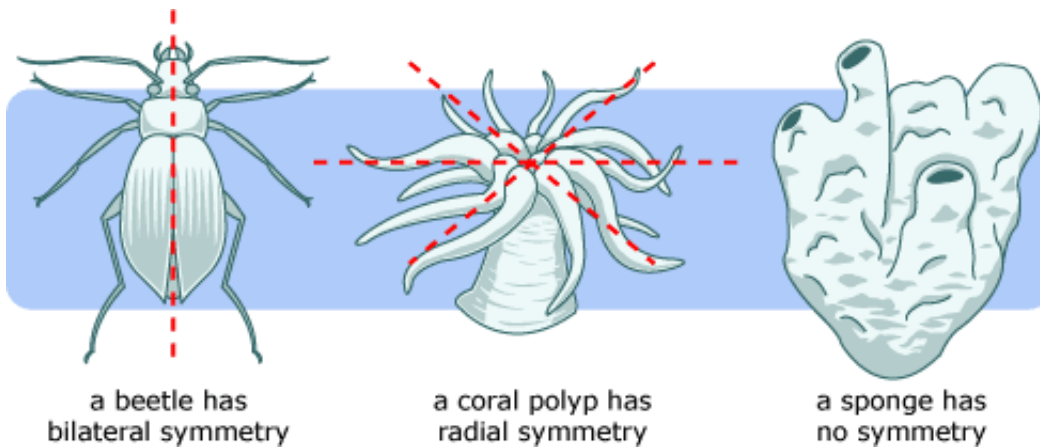

17 meters \*

How long, how deep, Z axis.

**How much does your lifeform weigh? \***

Average weight in kilograms or grams.

## Body Layout

**What kind of body layout does your life form have? \***

- Bilateral Symmetry
- Radial Symmetry
- No Symmetry or asymmetrical
- Other:

## Color

**What color is your life form? Is it multicolored? Does it blend into it's environment? \***

You may check more than one box.

- Red
- Orange
- Yellow
- Green
- Blue
- Purple
- Black
- White
- Gray
- Brown
- Silver
- Transparent
- Other:

**What habitat does your lifeform occupy? \***

Does it fly through the air? Does it swim under water?

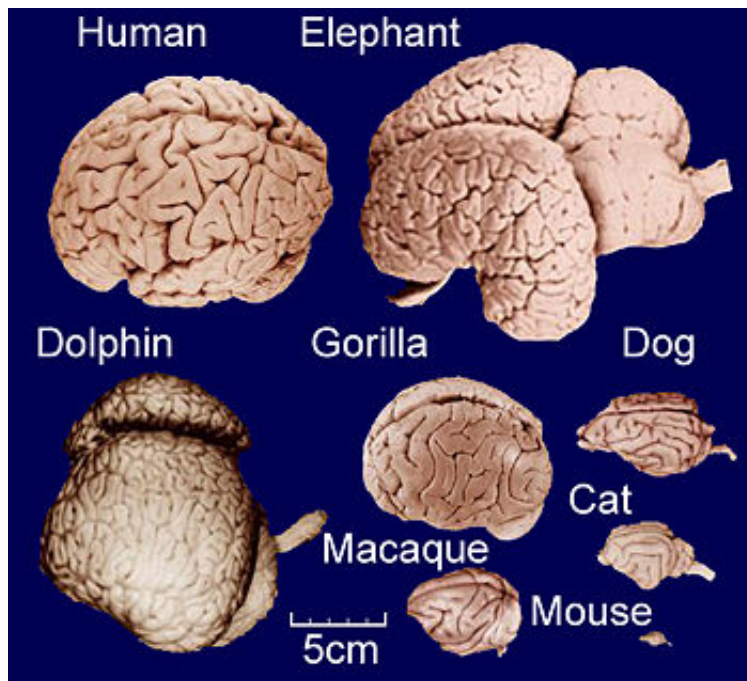

- In the air? (aerial)
- In water? (aquatic)

- On land? (terrestrial)
- Both land and water (amphibious)
- Underground (subterranean)
- In the tops of trees? (arboreal)
- Near the poles, on the ice? (polar)
- Other:

**How does your life form get energy? \***

- Absorbs it from the planet's star
- Consumes other life forms
- Obtains energy from chemical reactions
- Other:

## Intelligence?

**Is your lifeform intelligent or lacking self awareness? \***

1 2 3 4 5 6 7 8 9 10

---

No nervous system            Beyond human intelligence

---

**Give us a brief description of your life form (5 sentences or more) \***

A large, empty rectangular box with a thin border, intended for user input. A small double-slash icon is visible in the bottom right corner of the box.

Submit

A horizontal progress bar that is completely filled, indicating 100% completion.

100%: You made it.
